

# NORTHEAST METRO NATURAL GAS PROJECT

START OF CONSTRUCTION FLYER  
APRIL 2022  
MINNESOTA

## Work starting soon

This year's activities will occur on County Road B, between Lexington and Hamline avenues, and on Hamline Avenue, between County Road B and County Road C. Construction will start soon and is anticipated to be completed this fall.

Please note schedules are subject to change.

## Construction

Our contractor for the project is Q3 Contracting. Additional contractors will also work on the project.

During work you may notice:

- Marking of utility lines and utility survey holes.
- Road and sidewalk closures.
- Traffic control.
- Temporary changes to access.
- Construction noise.
- Parking restrictions.

We work to reduce construction-related inconveniences and will temporarily restore work areas following natural gas line installation. Final restoration will occur when conditions allow.

We will also coordinate with the City of Roseville's County Road B Watermain Improvements Project taking place on County Road B, between Lexington Avenue and Dellwood Street.

## Overview

We are replacing 12 miles of natural gas lines in Ramsey County for the Northeast Metro Natural Gas Project. Construction began in spring 2019 and is expected to be completed in fall 2022.

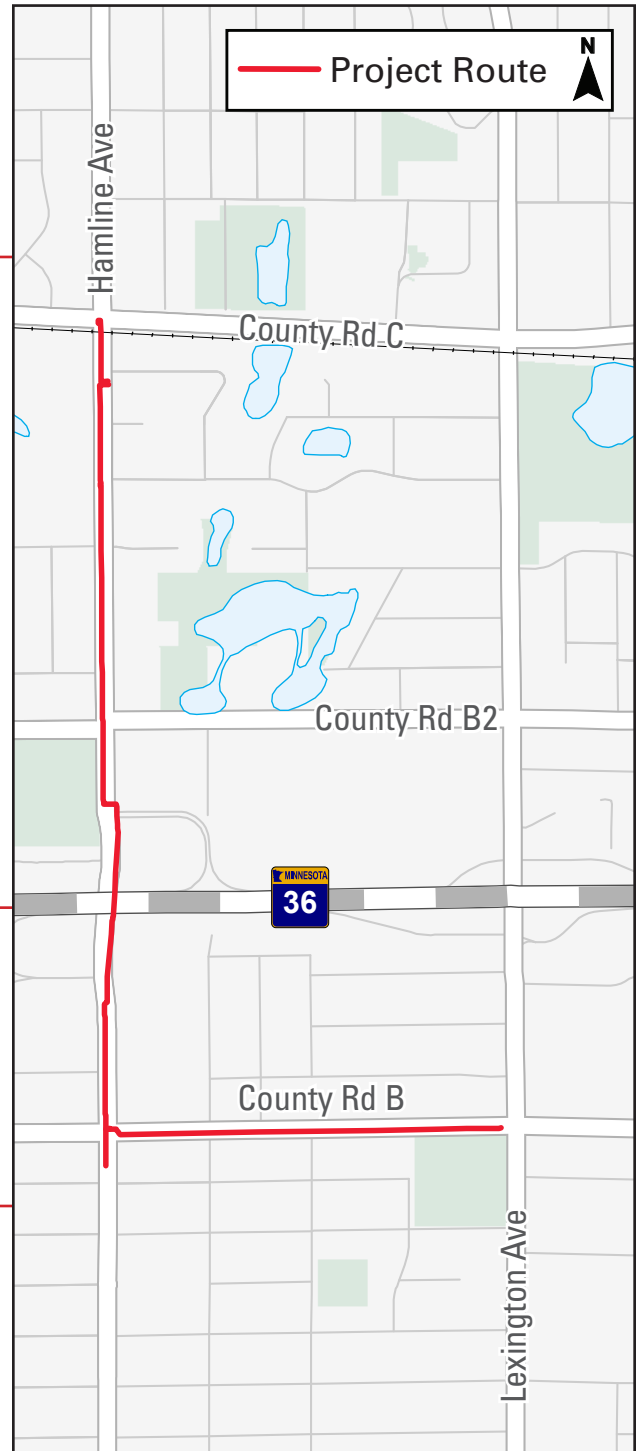

This work allows us to continue to provide safe, reliable service and enhances system resiliency during extreme weather.

## Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.

This map is a graphic and may not show exact locations.
