

NORTHEAST METRO NATURAL GAS PROJECT

TEMPORARY MATERIALS STORAGE AREA
APRIL 2022
MINNESOTA

This map is a graphic and may not show exact locations.

Temporary materials storage area

This year, we will use a temporary materials storage area located at 1472 Commerce Street, on the southwest corner of Commerce and Pascal streets in Roseville.

We will use this location for the following:

- Storing construction equipment.
- Placing materials.
- Conducting safety briefings.
- Performing minor activities.

Our contractor for the project is Q3 Contracting. Additional contractors will also work on the project.

Overview

We are replacing 12 miles of natural gas lines in Ramsey County for the Northeast Metro Natural Gas Project. Construction began in spring 2019 and is expected to be completed in fall 2022.

This work allows us to continue to provide safe, reliable service and enhances system resiliency during extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
